

Don't Stop Thinking About Tomorrow  
*Educating Women & Minorities about TSP*  
 Jen Hilts, Financial Advisor  
 First Command Financial Services

*You are invited to a special presentation on the unique financial concerns of federally employed women. A recent report by OPM indicates that women are less likely to fully participate in the TSP than their male counterparts. Given that 9 out of 10 women will manage their finances alone at some point in their lives, failing to take charge of your financial future could be a mistake that you will regret. Join us for a fun, engaging discussion about practical steps you can take now to more effectively pursue the life you imagine!*
