Whether you are a leader of many, or just yourself, it's going to take everyone working together to make things better. **Where do you fit in all this?** How will the state-of-the-state affect your long term career goals and personal aspirations?

**There's only one thing you can be sure of, and that's YOU!** How ready, willing and able are you to do what it takes to succeed in the midst of chaos? To affect positive change, it takes positive people. **Have you positioned yourself for success?** This session will help you create opportunities to take charge of your job, your outlook, and yourself!

It's a new year and a time when we all start thinking of what we can do better this year than last. Do we need more of something, or less of it? Do we need to start doing, or stop doing? What will it take to get you there? With so much going on in Washington, **what can you do to not only survive, but thrive?** Before finalizing your 2011 blueprint, why not take the opportunity to reenergize and expand your thinking by attending this session.
